Balloon-occluded Retrograde (BRTO) and Antegrade (BATO) Transvenous Obliteration of Gastric, Duodenal and Mesenteric Varices: Part-2
Wael E.A. Saad, MD, FSIR and Takashi Kitanosono, MD

Introduction
Wael E.A. Saad

Vascular Anatomy and the Morphologic and Hemodynamic Classifications of Gastric Varices and Spontaneous Portosystemic Shunts Relevant to the BRTO Procedure
Wael E.A. Saad

The Conventional Balloon-Occluded Retrograde Transvenous Obliteration Procedure: Indications, Contraindications, and Technical Applications
Wael E.A. Saad, Takashi Kitanosono, Jun Koizumi, and Shozo Hirota

Optimizing Logistics for Balloon-Occluded Retrograde Transvenous Obliteration (BRTO) of Gastric Varices by Doing Away With the Indwelling Balloon: Concept and Techniques
Wael E. Saad and David B. Nicholson

Ectopic Varices: Anatomical Classification, Hemodynamic Classification, and Hemodynamic-Based Management
Wael E.A. Saad, Allison Lippert, Nael E. Saad, and Stephen Caldwell

Stomal Varices: Management With Decompression TIPS and Transvenous Obliteration or Sclerosis
Wael E. Saad, Nael E. Saad, and Jun Koizumi
